About us

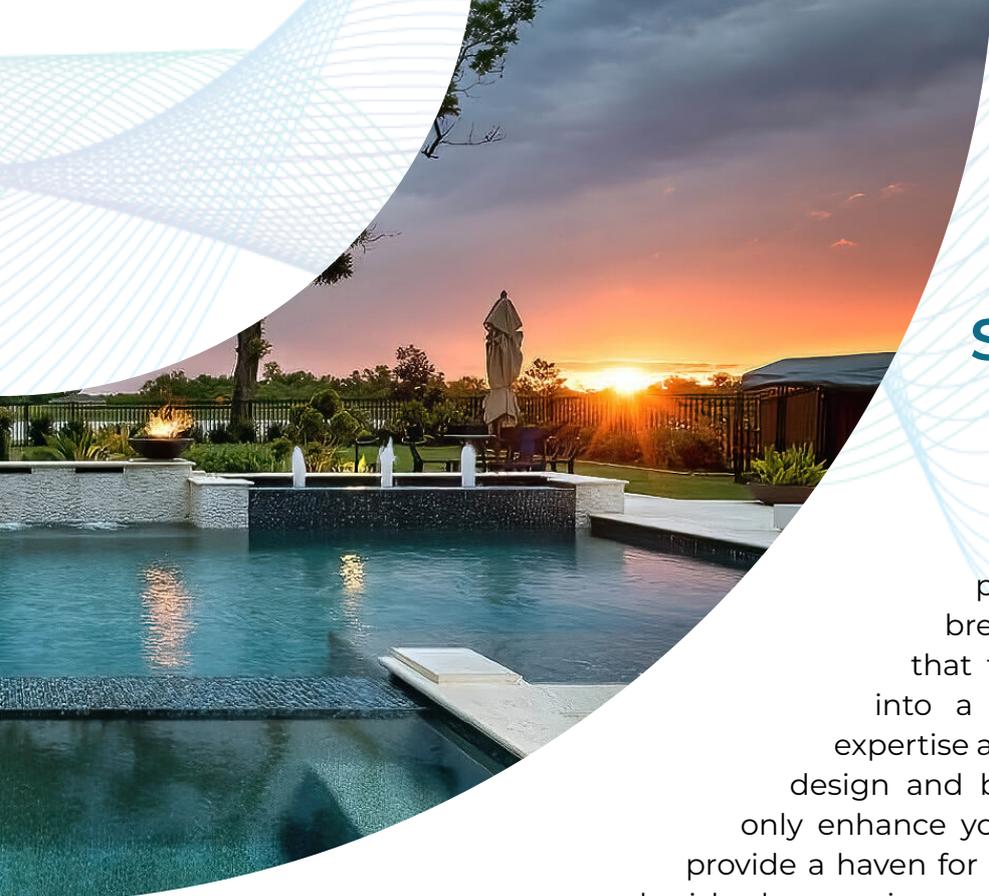

Established in 2014, we built a reputation for delivering high-end construction projects with exceptional quality as per client budget. We pride ourselves on our flexibility and dedication to client satisfaction, ensuring each project meets and exceeds expectations. Our talented and experienced design team utilizes advanced visualization techniques, allowing clients to choose their pool designs before construction begins. This commitment to excellence and innovation has earned us the trust of prestigious clients who demand nothing but the best.

Swimming Pool Maintenance

Normally it is difficult for the end user to accommodate a schedule from hectic routine lives which make it difficult to maintain the pool. Bluepool here offers the complete package to undertake the hassle free maintenance of the pools and its surrounding.

A Calendar for maintenance schedule shall be provided to ensure a smooth service.

- PH Test
- Chlorine Test
- Chemical Treatment
- Debris Removal
- Pump Room Refurbishment
- Vacuuming
- Blue Pool Special Water Treatment
- Sand Change
- Pool Deck Removal & Placement
- Removal & Installation of New Tile

An aerial photograph of a resort pool area. The central feature is a large, kidney-shaped swimming pool with a blue mosaic tile interior and a grey stone-like border. To its right is a smaller, circular hot tub with a similar mosaic tile interior and a stone border. The pools are surrounded by a wooden deck. Several lounge chairs are scattered around the pools, some under large, curved, wooden pergolas. In the foreground, there are several light-colored patio umbrellas. The background shows more of the resort, including another pool and lush greenery.
